#1 WALK-IN SOLUTION

UNPARALLELED PARTNER FOR CHAINS

Chain Collaboration

Partner with Amerikooler for your next Walk-In Cooler and Freezer project, and experience the difference that a reliable manufacturer dedicated to service and quality can make to your business.

Amerikooler excels in supporting chain dealers by delivering unmatched accuracy, top-notch material and product quality, industry-standard accessories and features, and energy-efficient insulation. We stand by our commitment to customer support and satisfaction. Providing a Quick Ship program that ensures impressive three-day lead times for standard sized models. We manufacture Custom, Combo, C-store and Warehouse Walk-Ins built to spec, replacement doors, floors and more.

PRODUCTION CAPACITY AND MANUFACTURING SIZE

- Amerikooler's 200,000 square feet production facility, equipped with automated assembly lines, ensures efficient manufacturing of Walk-Ins that can scale with your demand. We produce projects to spec, orders are designed to suit your unique operational requirements. Amerikooler has a large storage capacity of replacement parts and refrigeration units from Heatcraft for fast shipping to you without wasting time sourcing availability. Our cloud based operations guarantee constant data accessibility and protection through regular backups, while full generator backups to our production plant ensure uninterrupted production.

APPROVED AND CERTIFIED COMPLIANCE

- Amerikooler takes pride in meeting and exceeding all necessary compliance standards, approvals, regulations, and building codes in all 50 states.
- Our products are thoroughly tested and certified to ensure they meet the highest quality and safety requirements - from Hurricane to Earthquakes Amerikooler has you covered with all necessary seals.
- Grey is the New Green; AK-XPS Grey insulation meets and exceeds with LEED, EL, EPD, ICC-ESR EPA, ASTM certifications and IBC Flame/Smoke Ratings.

DETAILED DRAWINGS

- Our in-house team of experienced engineers is equipped with the latest technology and expertise to provide you with comprehensive and highly detailed Revit and CAD drawings on request.

QUALITY AT COMPETITIVE PRICE

- Commitment to never compromise on quality production or premium materials ensures long-term savings for our customers. Lower upfront costs on products may actually incur additional expenses down the line due to sub-par materials and production methods.

ON-TIME DELIVERY, EVERY TIME

- We understand the importance of timelines in project execution. With our streamlined processes and dedicated logistics team, we consistently deliver on time. In fact, 99% of all orders are delivered as promised, so you can rely on us to meet your deadlines.
